Re: Safety Performance Recognition

Dear Dean:

This is a formal Letter of Recognition on the excellent safety performance that Corrosion Service achieved in 2018.

On behalf of the CP Projects & Engineering team of TransCanada Pipeline Ltd, I am proud to acknowledge the excellent safety performance that Corrosion Service has achieved throughout 2018 on TransCanada's CP Program:

Total Recordable Case (TRCR) = 0
Away From Work Case (AWCR) = 0
Vehicle Incident Frequency (VIF) = 0

With your supports, our entire CP Remedial Program (involved ~350 workers) also achieved Triple Zero in 2018. Your performance once again proves that Zero Is Real for Safety.

At TransCanada, safety is one of our core values, and through your company's exemplary action we continue to build a safety culture that supports our Corporate Values of Safety, Integrity, Collaboration and Responsibility.

Thank you for your dedication and support to TransCanada's Safety Value. We look forward to having your work team as positive role models on our future projects.

Sincerely,

A handwritten signature in blue ink, appearing to read "Simon Chen", is written over a horizontal line.

Simon Chen, Ph.D, P.Eng
