

Corrosion Service was founded in 1950 by Thomas R.B. Watson as the first Canadian firm to specialize in cathodic protection. Our founding philosophy was based on the principles of providing great customer service and developing a deep understanding of customer needs, these same core principles still guide our company today.

Throughout our history we have always been privately owned by successive groups of employees that have risen through the organization. This ownership structure gives us a unique perspective on business and ensures that our stakeholders (customers, employees and partners), rather than shareholders, always come first. This is vital for a company such as ours, given that we exist primarily to protect the environment, our citizens and the prosperity of the communities in which we live.

Position: Electrician

Duration: 8 Month Contract

GENERAL FUNCTION:

The position is based in our Saskatchewan office. The candidate reports to the Regional Saskatchewan Operations Manager.

RESPONSIBILITIES:

- Numerous additional upcoming projects in Saskatchewan and Manitoba would be benefited by having additional electricians on staff
- This position can be expected to have extensive travel requirements with nearly all work occurring in a field setting away from the home office bases. Days on/off schedules will vary dependent on project/client scope and directive.
- Candidate with 1-2 years of experience in a field support type role would be an asset.
- Candidates must have good oral and written communication and computer skills. Must be physically fit, willing to routinely work outdoors.
- The candidate should have solid hands-on technical capabilities

QUALIFICATIONS:

- High school diploma
- Journeyman Electrician Status (master preferred but not mandatory)
- Minimum 5 years related work experience
- Experience within oil & gas industry would be considered an asset but is not mandatory
- Experience within industrial electrical work would be considered a very strong asset but is not mandatory
- Keen eye for detail and pride in workmanship
- Applicants must have ability to work as part of a larger overall team taking direction from project management personnel and project foreman.
- Applicants must have ability to delegate tasks efficiently to more junior employees.
- Commitment to personal, company, and industry advancement is mandatory
- Basic computer skills are mandatory
- Ability to read/interpret engineering typical drawings is mandatory
- Good command of English language is mandatory

- Ability to meet companies D&A policy is mandatory
- Class 1A or 5G driver's licence would be considered a very strong asset
- Clean drivers record and criminal record check is mandatory

This is an 8-month contract, ending December 31, 2019 or earlier.

We are an organization where you can apply your skills to some of the world's most challenging, and interesting projects nationwide.
