

Corrosion Service was founded in 1950 by Thomas R.B. Watson as the first Canadian firm to specialize in cathodic protection. Our founding philosophy was based on the principles of providing great customer service and developing a deep understanding of customer needs, these same core principles still guide our company today.

Throughout our history we have always been privately owned by successive groups of employees that have risen through the organization. This ownership structure gives us a unique perspective on business and ensures that our stakeholders (customers, employees and partners), rather than shareholders, always come first. This is vital for a company such as ours, given that we exist primarily to protect the environment, our fellow citizens and the prosperity of the communities in which we live.

Position: Construction Manager / Superintendent

Duration: CONTRACT

The Construction Manager / Superintendent reports to the Regional Operations Manager. The Construction Manager / Superintendent oversees all aspects of our construction projects, including meeting with project stakeholders, managing field supervisors, and field teams.

Duties include but are not limited to:

The Construction Manager / Superintendent will be responsible for ensuring all objectives and standards are met, and for finding solutions to problems as they arise. Construction Manager / Superintendent will ensure all equipment and materials are available on site as needed.

The Construction Manager / Superintendent shall work with the project and operations teams to ensure the project is planned in a manner that meets and exceeds all objectives, and ensure it is completed on time and within budget.

The Construction Manager / Superintendent will be skillful delegators, adept at identifying crucial aspects of the project and prioritizing them— while staying on top off all other aspects of the project.

We trust that everyone working for and with us will join our Company in a personal commitment to health, safety and environmental responsibility as primary goals in all our day-to-day business ventures.

The Construction Manager / Superintendent duties include:

- Provide exemplary customer service
- Create, foster and support a work environment that is consistent with our mission statement, values and commitments to safety and quality
- Work with the project managers to review and contribute to proposals, estimates, budgets, schedules, WBS, change orders, RFIs, sub-contractor RFPs including recommending cost saving strategies
- Contribute to the completion and maintenance of project charters including project kick-off and close-out meetings
- Participate in scope definition for a project
- Work with project managers to manage, track and report on cost, schedule, materials and manpower to both internal and external stakeholders including

defining and measuring against project milestones, cost and risk analyses and margin calculations to determine project health

- Review and contribute to HASPs and ITPs and ensure field staff have and understand the use of these documents prior to beginning site activities
- Liaise with clients and team members to schedule day-to-day operation activities including project staffing levels
- Attend, chair and participate in onsite and offsite meetings with clients, owners, staff, contractors and other project stakeholders
- Extensive travel in Ontario and Quebec

Resolve issues during construction
